

REMARKS

The specification has been amended to include the ATCC deposit information. A receipt from ATCC is attached. Claims 1, 6 and 23 have been amended to state the ATCC accession number. No new matter is included in these amendments.

Applicant respectfully requests entry of the foregoing amendments to the specification and claims.

1434-005

The seeds were accompanied by: ☒ a scientific description ☐ a proposed taxonomic description indicated above. The seeds were received July 18, 2006 by this International Depository Authority and have been accepted.

AT YOUR REQUEST: ☒ We will inform you of requests for the seeds for 30 years.

The seeds will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the seeds and ATCC is instructed by the United States Patent & Trademark Office or the depositor to release said seeds.

If the seeds should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace them with viable seeds of the same.

The seeds will be maintained for a period of at least 30 years from date of deposit, or five years after the most recent request for a sample, whichever is longer. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the seeds cited above was tested July 31, 2006. On that date, the seeds were viable.

International Depository Authority: American Type Culture Collection, Manassas, VA 20110-2209 USA.
